Reform Needed.

The following letter from the workmen of Yuma numerously signed appears in the Tucson Citizen. It is a question that deserves consideration, and if there is not any law prohibiting the employment of convicts in competition with honest labor, such an enactment should be passed by the next legislature:

YUMA, ARIZ., Sept. 8, 1889.

To Hon. Lewis Wolfley, Governor of the Territory of Arizona:

We, the undersigned workmen, laborers, and business men of this Territory in and near Yuma, most respectfully ask you to answer the following question:

Is there any law in this Territory which prohibits the employment of convict labor in opposition to free workmen, and the public in general? Those of us who have not been convicted of crime, and who still endeavor to keep out of prison, by an adherence to the law, and to obey its commands, are dependent upon our daily toiling to provide for ourselves and our families, and would gladly work at such employment as Mr. Gates has seen fit to offer to inmates of the prison.

If you can prevent such competition against free labor, you will earn the lasting esteem and regard of all workmen throughout the Territory.

We sign very respectfully,

FRED MILLER,
A. W. CASADIX,
L. ESTERLIN.

Mr. Thos. Gates, ex-superintendent of the prison here, has such convict labor employed upon his buildings, which are used by the Collector of customs as a United States custom house.

There are many convicts working out in town for private parties at present.

We also protest against making the prison a public laundry.

Chas. Marsden and engineer Fraser, formerly of the Toughnut, arrived from Harshaw yesterday. A serious accident occurred recently to the boiler by which it was totally disabled. Mr. Marsden immediately came over to secure another one and was fortunate in securing one from the T. M. & M. Company, of this district. If he can procure a team he will return to Harshaw to-day. He is working on the French mine, on which he has a lease. Other mines in this district are showing up well, most of them being worked by chloriders. There are between 400 and 500 people in and around Harshaw, nearly all of whom are at work. Work has not yet been resumed on the Hensley group of mines, in Washington Camp, and operations will probably not commence in the next two months.

An exchange very truthfully says that newspapers aid materially in making good towns. If the people desire good, influential, wide-awake papers they must each and every one contribute toward their support. A non-supported newspaper is as bad as none. A paper that works for a town unceasingly is worth advertising in; a paper that is worth reading is worth subscribing for. Flattery and praise do not butter parsnips.

The remains of a man, badly torn by the coyotes and buzzards, were found the other day seven miles from Casa Grande by the track walker, and could not be identified.

Eleven prisoners are at present confined in the county jail. Assistant Jailer Howell is in charge during the absence of Jailer Farrington. Capt. Thorndyke makes a very efficient guard.

COUNTY RECORDS.

The following were filed in the County Recorder's office yesterday:

DEED.

BUTCHER'S RECORD.

MORTGAGE.

G. F. Heslep to W. E. Farris, personal property in the Huachuca mountains; \$200. Dated May 28.

H. B. Maxon will visit Bisbee while in this portion of Arizona, after which he will leave for San Francisco, arriving there on or before the first of next month. His field of operations this winter will be along the Colorado river, where he now has several corps of engineers stationed.

In Tangier there was a Jewish school receiving large aid from the Alliance Israelite at Paris. French and English were both taught. The Alliance committee, however, undertook to promote the interests of France by requiring English to be excluded, and all instruction to be given in French. On account of relations with Gibraltar, English is an important language to the Tangier Jews, so they refuse to yield, and the French have set up an opposition school, which so far is not successful.

Workmen have been engaged in removing the log structure that served as Baltimore's first postoffice from the spot on which it has stood 159 years to monument square, where it will be set up alongside the great granite building, occupying a whole block, which next week will be dedicated as the new postoffice. The quaint old structure is fourteen by fifteen feet and twelve feet high to the dormer roof. The openings between the logs were plastered up with oyster shells and mud.

E. W. Stump, secretary of the Tombstone Base Ball Club, yesterday wrote to Phenix in regard to the game to be played during the Territorial fair. If satisfactory arrangements can be made our boys will contest for the prize.

The decision of the land officers at Flagstaff, Saturday last, was against Mrs. Gonzales and for the people of Flagstaff. Mrs. Gonzales claimed a part of the townsite.

A counter complaint has been filed in the district court in the Jenkins divorce case by the defendant, who now resides in Oakland, and who in turn asks that a divorce be granted to him.

A gentleman who got out of bed early Sunday morning, has informed us that mercury in his thermometer was all in a heap at 40 degrees above zero. Eight degrees above the freezing point.—Prescott Courier.

Parents should be careful that their children do not contract colds during the fall or early winter months. Such colds weaken the lungs and air passages, making the child much more likely to contract other colds during the winter. It is this succession of colds that causes catarrh and bronchitis or paves the way for consumption. Should a cold be contracted, lose no time but cure it as quickly as possible. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold in a few days and leave the respiratory organs strong and healthy. For sale by H. J. Peto.

The horse Comanche, the only survivor of the famous Custer massacre, is still handsomely cared for at the government's expense. By special order of the military authorities Comanche is provided with a comfortable stall fitted up especially for him out in Dakota. No one is permitted to ride him, and he is not allowed to do any work whatever. Riddled with bullets and scarred by saber wounds, his body speaks eloquently of the perilous duty he has performed in his twenty-two years of service under the government.

A Florida paper thus tells how a snake bitten horse was cured: "About two weeks ago J. W. Gerald's mare was bitten by a snake in his grove, on Lake Harris, supposed to have been a moccasin. The mare had spasms, and the first night after being bitten charged all over the grove on a dead run. She then swelled until her hide was tight as a drum-head. Mr. Gerald tried three remedies, and cured her; a strong hot salt bath, drenched with tobacco tea, and with a tea made from the moss which grows on the north side of forest trees. The mare was sick twelve days.

Mr. Moore, the Post-Master at Bradshaw, Va., after reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, concluded to try a small bottle of it. He says: "I used it in two cases for colic and three for diarrhoea with perfect satisfaction. One dose gave relief in every case but one, that was a bad case of colic and required the second dose. I have handled a great deal of patent medicine as agent and for my own use, but never tried any that gave as good results as Chamberlain's Colic, Cholera and Diarrhoea Remedy." For sale at 25 and 50 cents per bottle by H. J. Peto.

FAIRBANK, - ARIZONA

Swept by the Tide of Popularity.

To the topmost pinnacle of success, Hostetter's Stomach Bitters stands a shining proof of what genuine merit, backed by the living force of proven facts, can attain. The North and South American continents, Europe, Australia, the West Indies, Guatemala and Mexico have all contributed wide patronage and testimony of the most favorable kind—but unsolicited—to swell the reputation of this sterling remedy. Among the maladies for which the most convincing public and professional testimony proves that it is a benign curative, are chills and fever, biliousness, remittent, dumb ague and ague cake, dyspepsia, liver complaint, nervousness, debility, kidney and bladder complaints. It mitigates the infirmities of age, hastens convalescence, has a tendency to prevent ill consequences from exposure and exhaustion. Persons of sedentary habits and laborious occupations will find it an ever useful tonic.

It is truly a wonderful medicine." For sale by H. J. Peto.
